

# Process & Packaging, Inc.

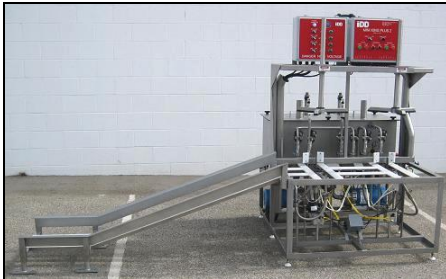

Design - Manufacture - Installation of Process & Packaging Systems

## *Mini King "Plus 2" & "Special"* *Semi-automatic keg washing, sterilizing and filling systems*

For Sankey - Single Valve Kegs (SVK's) for up to 35 kegs per hour

Mini King "Plus 2" (MKP2)

Mini King "Special" (MKS)

2 x MKP2 or MKS

Descending Keg Turner

### Some features of the Mini King "Plus 2" (MKP2) & "Special" (MKS):

- **Hi and Lo flow washing** – Washes the inside surfaces and outside of the spear tube in the keg.
- **Event Sequence** – All kegs are monitored and controlled by Infra-Red or Fiber Optic sensing probes.
- **Steam sterilizing and/or sanitizing**
- **Separate water and chemical tanks** for caustic, acid and sanitizer combination sequences
- **Keg size and styles** – Keg sizes in the range of 5 to 60 liter capacity can be accommodated.
- **Wash for stock** – Washes, sterilizes and charges keg with N<sub>2</sub>/CO<sub>2</sub> for long term storage.
- **Dual wash programs** – A programmed standard and long washing and cycle.
- **Low loss filling heads**
- **Automatic washing & filling connection heads**
- **MKS has overhead pneumatic clamps** - Handle stainless steel and varying plastic and disposable keg styles
- **UL/CUL certified electrical systems**

For the next step, transition to a Semi-Automatic 60 to 70 keg per hour system at an affordable price

And...

For a fully automatic keg washing, sanitizing and filling solution, ask about IDD's Super King or Emperor Systems.
